

Utilization Review Matrix

The matrix below contains all of the Current Procedural Terminology (CPT) 4 codes managed by National Imaging Associates Inc. (NIA) on behalf of AmeriHealth Caritas Iowa. This matrix is designed to assist in the resolution of claims adjudication and claims questions related to those services authorized by NIA. The “Allowable Billed Groupings” outlines the listed procedure codes that could be submitted on a claim representing an authorized service. This assumes the member is eligible at the time of the service, appropriate re-bundling rules are applied, the claim includes an appropriate diagnosis code for the CPT code, and the service is performed within the validity period.

If a family of CPT codes is not listed in this matrix, an exact match is required between the authorized CPT code and the billed CPT code. If the exact match does not occur, the charge should be adjudicated accordingly.

Please note: Services rendered in an emergency room (ER), observation room, surgery center or hospital inpatient settings are not managed by NIA.
